Steel wire armoured cable, commonly abbreviated as SWA, is a hard-wearing power cable designed for the supply of mains electricity. It is one of a number of armoured electrical cables – which include 11 kV Cable and 33 kV Cable – and is found in underground systems, power networks and cable ducting.

When I set out to investigate this question, I would not have guessed that it would turn out to be as much of an odyssey as it did. For most products, determining the need for a CE Mark is relatively straightforward, but not for wire and cable products! As equipment designers, engineers and technologists, we rarely think much about wire and cable.
